Saturday, 20 May 2023

Morning section

7 :45 ~08 :15	Registration
	Opening & introduction

08 :15 ~ 09 :15	Lecture 1	Moderator : T. NAKAMURA
-----------------	-----------	----------------------------

Lecture 1 : Basic of wrist arthroscopy

How to perform wrist arthroscopy : instruments, installation and portal (10 min)	W.J. CHEN
Complications of wrist arthroscopy (10 min)	Y.C. HUANG
Arthroscopic ganglionectomy (10 min)	C.H. WU
Arthroscopic synovectomy (10 min)	Y.K. LEE
Radial styloidectomy (10 min)	J.P. WANG

9:30 – 12:30	Practical session 1
--------------	---------------------

Radiocarpal and midcarpal joints examination Removal of synovial cyst Radial styloidectomy	All faculties
--------------------------------------------------------------------------------------------------	---------------

Experts help students directly at their allocated tables or an anatomical specimen with simultaneous teaching, individual practical training by students (1 expert for 2 operating tables)

12 :30~13 :30	Lunch
---------------	-------

Afternoon section

13 :30 ~ 14 :30	Lecture 2	Moderator : J.R. HAUGSTVEDT
-----------------	-----------	--------------------------------

Lecture 2 : TFCC problems

TFCC : anatomy, function, and diagnosis (10 min)	T. NAKAMURA
TFCC peripheral tears : diagnosis and repair (10 min)	J.R. HAUGSTVEDT
TFCC inside-out foveal repair (10 min)	K. FUJIO
Ulnocarpal abutment syndrome and arthroscopic Wafer procedure (10 min))	M. FOK
TFCC reconstruction (10 min)	G. BAIN

14:30 – 17:30	Practical session 2
---------------	---------------------

Basic: TFCC peripheral repair, arthroscopic Wafer procedure Intermediate: DRUJ arthroscopy, TFCC foveal repair	All faculties
-------------------------------------------------------------------------------------------------------------------	---------------

Experts help students directly at their allocated tables or an anatomical specimen with simultaneous teaching, individual practical training by students (1 expert for 2 operating tables)

18 :30~	Congress dinner
---------	-----------------

Sunday, 21 May 2023

Morning section

08 :00~08 :30	Registration
---------------	--------------

08 :30 ~ 09 :30	Lecture 3	Moderator : G.BAIN
Lecture 3 : ARIF for distal radial fracture, Scapholunate problem & STT joint problem		
Intraarticular radius fracture: arthroscopic reduction and fixation (10 min)		Y. ABE
Scapholunate ligament tears: problems and principles (10 min)		C. MATHOULIN
Arthroscopic SL reconstruction (10 min)		W.L.TSE
Arthroscopic treatment of STT joint (10 min)		W.L. TSE
09:30 – 12:30	Practical session 3	
Basic: Arthroscopic dorsal capsulo-Ligamentous repair, ARPP for SLD Intermediate: Arthroscopic SL reconstruction, STT joint arthroscopy		All faculties
Experts help students directly at their allocated tables or an anatomical specimen with simultaneous teaching, individual practical training by students (1 expert for 2 operating tables)		

12 :30~13 :30	Lunch
---------------	-------

Afternoon section

13 :30 ~ 14 :00	Lecture 4	Moderator : C. MATHOULIN
Lecture 4 : Scaphoid fracture, Basal joint arthroscopy		
Arthroscopic scaphoid fracture treatment (10 min)		H. COERT
Arthroscopic scaphoid non-union (10 min)		E. CHOW
Thumb CMC arthroscopy (10 min)		J.T. SHIH
14:30 – 17:00	Practical session 4	
Basic: Thumb CMC arthroscopy Intermediate: scaphoid fracture (arthroscopic or open), ARIF for intraarticular distal radius fracture		All faculties
Experts help students directly at their allocated tables or an anatomical specimen with simultaneous teaching, individual practical training by students (1 expert for 2 operating tables)		

17 :00~	End of the course
